SKILLS

- **Languages:** C++, Java, python
- **Frameworks:** HTML, CSS, Flask
- **Tools/Platforms:** MySQL, Wireshark
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management

PROJECTS

Cyber Security- Phishing Email detector:

Jun 2024 – Jul 2024

- Designed a Flask-based web application to detect phishing emails by allowing users to input email details for rule-based analysis.
- Developed a Chrome extension that integrates with Gmail, enabling direct phishing detection and real-time security alerts.
- Applied Flask (backend), JavaScript (extension), HTML/CSS (UI), and Python for analysis, ensuring an efficient and user-friendly phishing detection system.
- **Tech:** Python, Flask

C++ project- Customer Billing System:

Mar 2023 – Apr 2023

- Programmed a C++ application to automate the customer billing process, enhancing speed and reducing manual errors.
- Implemented features for invoice generation, payment handling, and customer account management with a structured programming approach.
- Utilized file handling and data management techniques in C++ to ensure reliable storage and retrieval of billing information.
- **Tech:** C++, Basic File Handling

TRAINING

Cipher Schools

Jun 2024 – Jul 2024

Training in Cyber Security

- Gained expertise in cybersecurity principles, ethical hacking methodologies, attack vectors, cryptography, malware analysis, and industry frameworks like OWASP and NIST.
- Conducted penetration testing, vulnerability assessments, and malware analysis using tools like Metasploit, Wireshark, Nmap, Burp Suite, REM nux, and FLARE VM.
- Configured firewalls, IDS/IPS, security patches, and access controls while automating security tasks with Python and Bash.
- **Tech stacks used:** Cryptography, Application & Web Security, DoS & Session Hijacking, Sniffing, SQL Injection

CERTIFICATES

- Digital Forensics Essentials (Coursera) Nov 2024
- Cloud Computing (NPTEL) Oct 2024
- Introduction Cyber Security Essentials (Coursera) May 2024
- Python Basics (Hacker Rank) Dec 2023

CO-CURRICULAR ACTIVITIES

- Attended Workshop on Interview Preparation | LPU Dec 2024
- Led the CSE Council as a Senior/Core Team Member | LPU. Mar 2024
- Attended the Career Summit 2023 by AIESEC | LPU Apr 2023

ACHIEVEMENTS

- **Secured Global Rank in Leet Code:** Jan 2025
Completed many biweekly and weekly challenges on Leet Code with good ranks.
- **Secured 2nd position in a cultural event “One India” at university:** Mar 2024
Stood 1st Runner-Up representing Mizoram in the event “One India” with the theme of Equality, Diversity, and Inclusivity.
- **Inter School Science Exhibition:** Nov 2020
Stood 1st Runner-Up in a prestigious inter-school exhibition, showcasing innovation and creativity.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; CGPA: 7.00

Punjab, India

August 2022 - Present

Jai Public Sr Sec School

Intermediate; Percentage: 94.60%

Kota, Rajasthan

April 2020 - March 2021
